

# MATERIAL SAFETY DATA SHEET

**D-LACTIC ACID**

MSDS NO.002

## SECTION 1- MATERIAL/COMPANY IDENTIFICATION

Chemical Name	D(R)-2-Hydroxy propionic acid
Company Name	Musashino Chemical (China) Co., Ltd.
Address	No.66 Chunfeng Rd. Economic & Technological Development Zone of Yichun, Jiangxi. 336000 China
Charge Department for MSDS	Safety Management Department
Responsibility for MSDS	Fan Gui-Zeng
Tel.	+86-795-3156266
Fax	+86-795-3196986
Emergency Tel.	+86-795-3156282

## SECTION 2- HAZARDS IDENTIFICATION

Symbols	Xi - Irritant
Skin contact	Irritant
Health hazard	Skin contact may cause severe skin irritation with discomfort or rash. Prolonged exposure may cause skin burns or ulceration.

## SECTION 3- COMPSITION/INFORMATION ON INGREDIENTS

Chemical name	D(R)-2-Hydroxy propionic acid
Component	Lactic Acid ( 90% aqueous solution)
Formula	CH <sub>3</sub> CH(OH)COOH
Molecular Weight	90.08

## SECTION 4- FIRST AID MEASURES

General advice	Show this safety data sheet to the doctor in attendance.
Skin contact	Immediately remove all contaminated clothing, including footwear. Flush skin and hair with plenty of water or tepid water.
Eye contact	Immediately hold eyelids apart and flush eyes with plenty of water at least 15minutes. If irritation persists, call a physician.
Inhalation	Immediately remove to fresh air. If breathing is difficult, give oxygen, call a physician.
Ingestion	If swallowed, drink plenty of water or salt water. If in doubt, Call a physician immediately.

## SECTION 5- FIRE FIGHTING MEASURES

Flammability	Product is considered non-flammable.
Fire extinguish	Remove a source of fire. Use a fire extinguisher.

Extinguishing media  
Specific hazards

Dry Chemicals, Water, carbon dioxide (CO<sub>2</sub>), foam.  
Thermal decomposition can lead to release of irritating gases and vapors.

## SECTION 6- ACCIDENTAL RELEASE MEASURES

Personal precautions

Wear chemical splash goggles, rubber boots and rubber gloves. Avoid contact with skin and eyes.

Environmental precautions

Prevent further leakage or spillage.

Methods for cleaning up

Neutralized the materials with sodium carbonate or sodium hydrogen carbonate. Pack an absorbent material into a properly labeled container after absorbing neutralized solution with sand or diatom earth. Clean up the leaked place with plenty of water

## SECTION 7- HANDLING AND STORAGE

Handling

Wear personal protective equipment to prevent skin contacting acid liquid. Keep the container well when handling

Storage

Keep container tightly closed. Keep in properly labeled containers.

Store in areas shielded the light, and below room temperature.

Keep away from strong bases storage areas.

Packaging material

Polyethylene plastic containers etc.

## SECTION 8- EXPOSURE CONTROLS/PERSONAL PROTECTION

Personal protection equipment

Wear protective clothing. Safety glasses face shield and rubber gloves. Breathing apparatus needed only when aerosol or mist is formed.

Hygiene measures

Set up safety shower, hands washer and eyes washer nearby handling the materials. Indicate the positions distinctly. When using, do not eat, drink or smoke. Remove and wash contaminated clothing before re-use.

## SECTION 9- PHYSICAL AND CHEMICAL PROPERTIES

Appearance

Colorless or yellowish syrupy liquid having an acid taste.

Odorless or a slight characteristic odor.

Density(20°C)

1.12~1.22g/ml (50~90% lactic acid solution)

PH

< 2 (25°C)

Boiling point

125°C (90% solution)

Flash point

>112°C

Decomposition temperature

>200°C

Solubility

Soluble in water, alcohol.

Corrosion test

On metal non corrosive (SUS-41 1.14 mm/year)

Viscosity 5~60 mPa.s (25°C) (50~90% Solution)

**SECTION 10- STABILITY AND REACTIVITY**

Stability Stable at normal conditions. Hazardous polymerization does not occur.

Conditions to avoid Avoid temperatures above 200°C

Materials to avoid Avoid oxidizing agents, alkaline substances. Exothermic reaction with alkaline substances.

**SECTION 11- TOXICOLOGICAL INFORMATION**

Acute toxicity LD50 4875 mg/kg bw. (mouse, oral) (as 100% lactic acid)  
LD50 3730 mg/kg bw. (rat, oral) (as 100% lactic acid)

Irritation 500 mg/24 hr sev. (rabbit skin)  
750 µg sev. (rabbit eye)

Carcinogenicity Bacterial mutagenic test: Negative

Skin Contact Irritant

**SECTION 12- ECOLOGICAL INFORMATION**

Mobility Completely soluble, readily biodegradable does not occur hazardous polymerization.

Chemical Oxygen Demand 0.9 g O<sub>2</sub>/g  
(COD)

Biochemical Oxygen Demand 0.67 g O<sub>2</sub>/g  
(BOD)<sub>20</sub>

Bioaccumulation None

Ecotoxicity EC50/48h/Daphnia = 240mg/l  
LC50/48h/Fish = 320mg/l  
EC50/Algae= 3500mg/l (neutral)

**SECTION 13- DISPOSAL CONSIDERATIONS**

Waste from residues/unused products Burn up absorbent sand gradually in the opened incinerator after absorbing the materials, or burn up the materials directly in the incinerator through atomizer.

Contaminated packaging Decontaminate empty containers with water, dilute with water and flush to waste system. Recycle containers if possible.

Further information Treatment, storage, transportation, and disposal must be in accordance with local regulations.

**SECTION 14- TRANSPORTATION INFORMATION**

Packing mark Sticking properly on label, indicating material name, lot No., net weight etc.

Others The materials transportation by vehicles, the sender serves

deliverers with instructions for safe handling. In transportation confirm leak less of the container, and load the materials not to upset, fall and damage. Secure preventing the load from falling.

## SECTION 15- REGULATORY INFORMATION

US Regulations	US TSCA Inventory Status Y
R-Phrases	R41-Risk of serious damage to eyes. R38-Irritation to skin.
S-Phrases	S24-Avoid contact with skin. S26-In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. S37/39-Wear suitable gloves and eye/face protection.
China Regulations	The safe use of chemicals regulation workplace China: Cosmetics raw materials (Drug law)

## SECTION 16- OTHER INFORMATION

Revision Date	2020/06/01
EEC-NO.	E270
EC-NO.	201-196-2
LC50	Median lethal concentration
LD50	Median lethal dose
