Silicone Oil

Model	Application	Style	Soild Content	Remark
72001	synthetic fiber (especialy polyester)	smooth & ultra soft	50%	Original HC
72002	cellulose fiber (especialy cotton)	smooth & ultra soft	85%	silicone oil series
72003	cellulose fiber (especialy cotton)	hydrophillic	85%	1. Wide range of applicable fibers, all have soft effect, ultra
72004	synthetic fiber	fluffy bulky & smooth	60%	soft means outstanding soft performance.
72006	cellulose fiber (especialy cotton)	hydrophillic + deepening & brightening	60%	2.Can be use for
72007	synthetic fiber	silky slick	50%	finishing process after emusified or diluted.
72009	blends like CVC T/C	slick & ultra soft	65%	3. Can be use as material for compound
72012	cellulose fiber (especialy cotton)	fluffy bulky	60%	different style softener.

Silicone Softener (Emulsion)

Model	Application	Style	Soild Content	Remark
60695	cotton* and cotton blends	hydrophillic + silky slick	65%	Silicone Softener (Emulsion) series 1.Mature softener according to years experience, high fabric pertinence and style pertinence, can be directly use for finishing process, dosage refer to TDS. 2.Total >300 models, more models please contact sales. 3.Cotton* included cotton, viscose, lycra, modal and other cotton similar fiber fabrics.
60698	cotton* and cotton blends	hydrophillic + ultra soft	65%	
63198	nylon	instant hydrophillic + silky slick	50%	
70868	cotton* and cotton blends	ultra soft + elasicity + smooth	40%	
70869	cotton* and cotton blends	cool core + elastic + smooth	20%	
78520	nylon	ultra soft + fluffy + silky slick	65%	
68019	cotton* and cotton blends	can be used in dyeing machine	15%	
70706	polyester, nylon and synthetic blends	silky slick + ultra soft	20%	
70705	polyester	smooth + fluffy bulky	25%	
70708	acrylic and arcylic blends	ultra soft + fluffy + silky slick	20%	
78193	cotton* and cotton blends medium and dark color fabric	fluffy bulky + elasticity + ultra soft, but amino yellowish	25%	
80808	mercerized fabric	elastic + silky slick	20%	
98082	mercerized fabric	silky slick	45%	

68243	sulfur black fabric	deepening + hydrophillic	40%	Silicone Softener (Emulsion) series 1.Mature softener according to years experience, high fabric pertinence and style pertinence, can be directly use for finishing process, dosage refer to TDS. 2.Total >300 models, more models for
60742	reative black fabric	deepening + hydrophillic	40%	
68093	reative red fabric	deepening + brightening + hydrophillic	45%	
60688	natural fiber fabric	deepening + brightening + hydrophillic + silky smooth	40%	
60188	Bio-polished fabric	deposit fabric crumbs + instant hydrophillic + dry	28%	
70879	cotton* and cotton blends	elastic + smooth	25%	
88768	cotton* and cotton blends	fluffy + elastic	16%	
96986	cotton* and cotton blends	elastic + smooth + fluffy	20%	
76048	mercerized fabric	elastic + silky smooth	20%	
88769	cotton* and cotton blends	plasticity + smooth	20%	
88639	cotton* and cotton blends	plasticity + silky slick	25%	different fabric and style please contact sales.
80729	denim, reactive blue, reactive black and dispersing black fabric	deepening + brightening + elastic + smooth	25%	3.Cotton* included cotton, viscose, lycra,
78123	napping fabric	elastic + smooth + gloss	65%	modal and other cotton similar fiber fabrics.
70752	polyester/acrylic and sweater fabric	smooth + fluffy bulky	45%	
60763	polyester and polyester blends	hydrophillic + fluffy + dry smooth	45%	
97078	polyester, nylon and silk	instant hydrophillic + moisture wicking + fluffy + silky smooth	40%	
78521	nylon, acrylic and cotton / acrylic	ultra soft + fluffy	45%
