

1,3-dimethyl urea:

MF:C₃H₈N₂O

Appearance: off-white crystal/white crystalline powder

Cas No:96-31-1

Einecs No:202-498-7

Packaging: 25kg/bag or according to customer requirement

item	specifications
Moisture (%)	≤0.5
Melting point(°C)	103~108
Purity	≥95% / ≥97.5%

Uses:as the intermediate for the synthesis of theophylline and caffeine,and also for the production of fiber processing agents and pesticide intermediates.
