Silicone Oil

Model	Application	Style	Soild Content	Remark
72001	synthetic fiber (especialy polyester)	smooth & ultra soft	50%	Original HC silicone oil series 1. Wide range of applicable fibers, all have soft effect, ultra soft means outstanding soft performance. 2.Can be use for finishing process after emusified or diluted. 3. Can be use as material for compound different style softener.
72002	cellulose fiber (especialy cotton)	smooth & ultra soft	85%	
72003	cellulose fiber (especialy cotton)	hydrophillic	85%	
72004	synthetic fiber	fluffy bulky & smooth	60%	
72006	cellulose fiber (especialy cotton)	hydrophillic + deepening & brightening	60%	
72007	synthetic fiber	silky slick	50%	
72009	blends like CVC T/C	slick & ultra soft	65%	
72012	cellulose fiber (especialy cotton)	fluffy bulky	60%	

Silicone Softener (Emulsion)

Model	Application	Style	Soild Content	Remark
60695	cotton* and cotton blends	hydrophillic + silky slick	65%	Silicone Softener (Emulsion) series 1.Mature softener according to years experience, high fabric pertinence and style pertinence, can be directly use for finishing process, dosage refer to TDS. 2.Total >300 models, more models please contact sales. 3.Cotton* included cotton, viscose, lycra, modal and other cotton similar fiber fabrics.
60698	cotton* and cotton blends	hydrophillic + ultra soft	65%	
63198	nylon	instant hydrophillic + silky slick	50%	
70868	cotton* and cotton blends	ultra soft + elasticity + smooth	40%	
70869	cotton* and cotton blends	cool core + elastic + smooth	20%	
78520	nylon	ultra soft + fluffy + silky slick	65%	
68019	cotton* and cotton blends	can be used in dyeing machine	15%	
70706	polyester, nylon and synthetic blends	silky slick + ultra soft	20%	
70705	polyester	smooth + fluffy bulky	25%	
70708	acrylic and arcylic blends	ultra soft + fluffy + silky slick	20%	
78193	cotton* and cotton blends medium and dark color fabric	fluffy bulky + elasticity + ultra soft, but amino yellowish	25%	
80808	mercerized fabric	elastic + silky slick	20%	
98082	mercerized fabric	silky slick	45%	

68243	sulfur black fabric	deepening + hydrophillic	40%	Silicone Softener (Emulsion) series 1.Mature softener according to years experience, high fabric pertinence and style pertinence, can be directly use for finishing process, dosage refer to TDS. 2.Total >300 models, more models for different fabric and style please contact sales. 3.Cotton* included cotton, viscose, lycra, modal and other cotton similar fiber fabrics.
60742	reative black fabric	deepening + hydrophillic	40%	
68093	reative red fabric	deepening + brightening + hydrophillic	45%	
60688	natural fiber fabric	deepening + brightening + hydrophillic + silky smooth	40%	
60188	Bio-polished fabric	deposit fabric crumbs + instant hydrophillic + dry	28%	
70879	cotton* and cotton blends	elastic + smooth	25%	
88768	cotton* and cotton blends	fluffy + elastic	16%	
96986	cotton* and cotton blends	elastic + smooth + fluffy	20%	
76048	mercerized fabric	elastic + silky smooth	20%	
88769	cotton* and cotton blends	plasticity + smooth	20%	
88639	cotton* and cotton blends	plasticity + silky slick	25%	
80729	denim, reactive blue, reactive black and dispersing black fabric	deepening + brightening + elastic + smooth	25%	
78123	napping fabric	elastic + smooth + gloss	65%	
70752	polyester/acrylic and sweater fabric	smooth + fluffy bulky	45%	
60763	polyester and polyester blends	hydrophillic + fluffy + dry smooth	45%	
97078	polyester, nylon and silk	instant hydrophillic + moisture wicking + fluffy + silky smooth	40%	
78521	nylon, acrylic and cotton / acrylic	ultra soft + fluffy	45%
