

# METHY ALLYL ALCOHOL POLYOXYETHYLENE ETHER HPEG-2400

Version: V2.0.0.1

Report No.: HGNM204F3M

Creation Date: 2020/12/07

Revision Date: 2020/12/07

**\*Prepared according to UN GHS (the 8th revised edition)**

## 1 Identification

### Product identifier

|                   |                                                     |
|-------------------|-----------------------------------------------------|
| Product Name      | METHY ALLYL ALCOHOL POLYOXYETHYLENE ETHER SPEG-2400 |
| Product Model     | HPEG-2400                                           |
| CAS No.           | 31497-33-3                                          |
| EC No.            | -                                                   |
| Molecular Formula | $(C_2H_4O)_n C_4H_8O$                               |

### Recommended use of the product and restrictions on use

|                          |                                   |
|--------------------------|-----------------------------------|
| Relevant identified uses | Surfactants, Water reducer.       |
| Uses advised against     | Industrial use, Professional use. |

### Details of the supplier

|                        |                                                          |
|------------------------|----------------------------------------------------------|
| Name of the company    | Chemabll (Hangzhou) co.,ltd                              |
| Address of the company | Gaojiao Road, Yuhang District, Hangzhou, Zhejiang, China |
| Post code              | 311121                                                   |
| Telephone number       | +86-571-8879 6269                                        |
| Fax number             | +86-571-8930 9772                                        |
| E-mail address         | shine@chemball.com                                       |

### Emergency phone number

|                        |                   |
|------------------------|-------------------|
| Emergency phone number | +86-571-8879 6269 |
|------------------------|-------------------|

## 2 Hazard(s) identification

### Hazard classification according to GHS

|                                        |                |
|----------------------------------------|----------------|
| Hazard classification according to GHS | Not applicable |
|----------------------------------------|----------------|

### GHS Label elements

|                   |                |
|-------------------|----------------|
| Hazard pictograms | Not applicable |
| Signal word       | Not applicable |

### Hazard statements

|                   |                |
|-------------------|----------------|
| Hazard statements | Not applicable |
|-------------------|----------------|

### Precautionary statements

## ◆ Prevention

|                   |                |
|-------------------|----------------|
| <b>Prevention</b> | Not applicable |
|-------------------|----------------|

## ◆ Response

|                 |                |
|-----------------|----------------|
| <b>Response</b> | Not applicable |
|-----------------|----------------|

## ◆ Storage

|                |                |
|----------------|----------------|
| <b>Storage</b> | Not applicable |
|----------------|----------------|

## ◆ Disposal

|                 |                |
|-----------------|----------------|
| <b>Disposal</b> | Not applicable |
|-----------------|----------------|

**Hazard description**

## ◆ Physical and chemical hazards

|  |                                                                                            |
|--|--------------------------------------------------------------------------------------------|
|  | Hygroscopicity. The product is solid or paste-like when used. Toxic smoke/fumes in a fire. |
|--|--------------------------------------------------------------------------------------------|

## ◆ Health hazards

|                     |                                                                                                                                  |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhaled</b>      | Inhalation of the product may produce adverse health effects or irritation of the respiratory tract following discomfort.        |
| <b>Ingestion</b>    | Accidental ingestion of the product may be harmful to the health of the individual.                                              |
| <b>Skin Contact</b> | Entry into the blood-stream, through, for example, cuts, abrasions or lesions, may produce systemic injury with harmful effects. |
| <b>Eye</b>          | This product may cause temporary discomfort following direct contact with the eye.                                               |

## ◆ Environmental hazards

|  |                                      |
|--|--------------------------------------|
|  | Please refer to 12th chapter of SDS. |
|--|--------------------------------------|

**3 Composition/information on ingredients****Substance/mixture**

|  |           |
|--|-----------|
|  | Substance |
|--|-----------|

| Component                                             | CAS No.    | EC No. | Concentration (wt, %) |
|-------------------------------------------------------|------------|--------|-----------------------|
| <b>Methyl Allyl Alcohol<br/>Polyoxyethylene Ether</b> | 31497-33-3 | -      | ≈ 100                 |

**4 First-aid measures****Description of first aid measures**

|                                   |                                                                                                                                                |
|-----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General advice</b>             | Immediate medical attention is required. Show this safety data sheet (SDS) to the doctor in attendance.                                        |
| <b>Eye contact</b>                | Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician if feel uncomfortable.                                   |
| <b>Skin contact</b>               | No harm in general situation. First aid is not needed.                                                                                         |
| <b>Ingestion</b>                  | Never give anything by mouth to an unconscious person. Call a physician immediately.                                                           |
| <b>Inhalation</b>                 | Move victim into fresh air. If breathing is difficult, give oxygen and consult a physician immediately.                                        |
| <b>Protecting of first-aiders</b> | Ensure that medical personnel are aware of the substance involved. Take precautions to protect themselves and prevent spread of contamination. |

**Most important symptoms/effects, acute and delayed**

- |   |                        |
|---|------------------------|
| 1 | Please see section 11. |
|---|------------------------|

**Indication of any immediate medical attention and special treatment needed**

- |   |                          |
|---|--------------------------|
| 1 | Treat symptomatically.   |
| 2 | Symptoms may be delayed. |

**5 Fire-fighting measures****Extinguishing media**

- |                                       |                                                                |
|---------------------------------------|----------------------------------------------------------------|
| <b>Suitable extinguishing media</b>   | Use extinguishing agent suitable for type of surrounding fire. |
| <b>Unsuitable extinguishing media</b> | No special notes.                                              |

**Specific hazards arising from the substance or mixture**

- |   |                                                                                   |
|---|-----------------------------------------------------------------------------------|
| 1 | Development of hazardous combustion gases or vapor possible in the event of fire. |
| 2 | Not considered a significant fire risk, however containers may burn.              |

**Special protective equipment and precautions for fire-fighters**

- |   |                                                                                                                       |
|---|-----------------------------------------------------------------------------------------------------------------------|
| 1 | As in any fire, wear self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full protective gear. |
| 2 | Fight fire from a safe distance, with adequate cover.                                                                 |
| 3 | Prevent fire extinguishing water from contaminating surface water or the ground water system.                         |

**6 Accidental release measures****Personal precautions, protective equipment and emergency procedures**

- |   |                                                                                                                     |
|---|---------------------------------------------------------------------------------------------------------------------|
| 1 | Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static discharges. |
| 2 | Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.                                   |
| 3 | Use personal protective equipment. Avoid breathing mist or dust.                                                    |

**Environmental precautions**

- |   |                                                       |
|---|-------------------------------------------------------|
| 1 | Prevent further leakage or spillage if safe to do so. |
| 2 | Discharge into the environment must be avoided.       |

**Methods and materials for containment and cleaning up**

- |   |                                                                                                                            |
|---|----------------------------------------------------------------------------------------------------------------------------|
| 1 | Use clean, non-sparking tools to collect absorbed material.                                                                |
| 2 | Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in suitable, closed containers for disposal. |
| 3 | Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations.         |

**7 Handling and storage****Precautions for safe handling**

- |   |                                                       |
|---|-------------------------------------------------------|
| 1 | Handling is performed in a well ventilated place.     |
| 2 | Avoid contact with eyes.                              |
| 3 | Keep away from heat/sparks/open flames/ hot surfaces. |

**Conditions for safe storage, including any incompatibilities**

|   |                                                                  |
|---|------------------------------------------------------------------|
| 1 | Keep containers tightly closed.                                  |
| 2 | Keep containers in a dry, cool and well-ventilated place.        |
| 3 | Keep away from heat/sparks/open flames/hot surfaces.             |
| 4 | Store away from incompatible materials and foodstuff containers. |

**8 Exposure controls/personal protection****Control parameters**

|                                           |                         |
|-------------------------------------------|-------------------------|
| <b>Occupational Exposure limit values</b> | No relevant regulations |
|-------------------------------------------|-------------------------|

## ◆ Biological limit values

|                                |                         |
|--------------------------------|-------------------------|
| <b>Biological limit values</b> | No relevant regulations |
|--------------------------------|-------------------------|

## ◆ Monitoring methods

|   |                                                                                                                                                   |
|---|---------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | EN 14042 Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents. |
| 2 | GBZ/T 300.1~GBZ/T 300.160-2017; GBZ/T 300.161~GBZ/T 300.164-2018 Determination of toxic substances in workplace air (Series standard).            |

**Engineering controls**

|   |                                                                                        |
|---|----------------------------------------------------------------------------------------|
| 1 | Ensure adequate ventilation, especially in confined areas.                             |
| 2 | Ensure that eyewash stations and safety showers are close to the workstation location. |
| 3 | Set up emergency exit and necessary risk-elimination area.                             |
| 4 | Handle in accordance with good industrial hygiene and safety practice.                 |

**Personal protection equipment**

|                                 |                                                                                                                                                                                                                                                                |
|---------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General requirement</b>      | No special requirements, please see the description below.                                                                                                                                                                                                     |
| <b>Eye protection</b>           | In general situation, eye protection is not needed. In the production process, when contacting with dust, tightly fitting safety goggles (approved by EN 166(EU) or NIOSH (US).                                                                                |
| <b>Hand protection</b>          | In general situation, hand protection is not needed.                                                                                                                                                                                                           |
| <b>Respiratory protection</b>   | In general situation, respiratory protection is not needed. If exposure limits are exceeded or if irritation or other symptoms are experienced, use a full-face respirator with multi-purpose combination (US) or type AXBEK (EN 14387) respirator cartridges. |
| <b>Skin and body protection</b> | In general situation, skin and body protection are not needed.                                                                                                                                                                                                 |

**9 Physical and chemical properties and safety characteristics****Physical and chemical properties**

|                                          |                             |
|------------------------------------------|-----------------------------|
| <b>Appearance</b>                        | White or light yellow solid |
| <b>Odor</b>                              | Slight odor                 |
| <b>Odor threshold</b>                    | No information available    |
| <b>pH</b>                                | 5.0~7.0                     |
| <b>Melting point/freezing point(°C)</b>  | 35.2 (1013 hPa)             |
| <b>Initial boiling point and boiling</b> | No information available    |

|                                       |                                                                              |
|---------------------------------------|------------------------------------------------------------------------------|
| range(°C)                             |                                                                              |
| Flash point(Closed cup,°C)            | Not applicable                                                               |
| Evaporation rate                      | Not applicable                                                               |
| Flammability                          | No information available                                                     |
| Upper/lower explosive limits[%(v/v)]  | Upper limit: No information available; Lower limit: No information available |
| Vapor pressure                        | Not applicable                                                               |
| Relative vapour density(Air = 1)      | Not applicable                                                               |
| Relative density(Water=1)             | 1.02                                                                         |
| Solubility                            | High solubility                                                              |
| n-octanol/water partition coefficient | No information available                                                     |
| Auto-ignition temperature(°C)         | No information available                                                     |
| Decomposition temperature(°C)         | No information available                                                     |
| Kinematic viscosity                   | Not applicable                                                               |
| Particle characteristics              | No information available                                                     |

## 10 Stability and reactivity

### | Stability and reactivity

|                                    |                                                                                                      |
|------------------------------------|------------------------------------------------------------------------------------------------------|
| Reactivity                         | Contact with incompatible substances can cause decomposition or other chemical reactions.            |
| Chemical stability                 | Stable under proper operation and storage conditions.                                                |
| Possibility of hazardous reactions | No information available.                                                                            |
| Conditions to avoid                | Incompatible materials, heat, flame and spark.                                                       |
| Incompatible materials             | No information available.                                                                            |
| Hazardous decomposition products   | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## 11 Toxicological information

### | Acute toxicity

|                |                          |
|----------------|--------------------------|
| Acute toxicity | No information available |
|----------------|--------------------------|

### | Carcinogenicity

| Component                                     | List of carcinogens by the IARC Monographs | Report on Carcinogens by NTP |
|-----------------------------------------------|--------------------------------------------|------------------------------|
| Methyl Allyl Alcohol<br>Polyoxyethylene Ether | Not Listed                                 | Not Listed                   |

### | Others

| Methyl Allyl Alcohol Polyoxyethylene Ether(Component) |                                                                  |
|-------------------------------------------------------|------------------------------------------------------------------|
| Skin corrosion/irritation                             | Based on available data, the classification criteria are not met |
| Serious eye damage/irritation                         | Based on available data, the classification criteria are not met |
| Skin sensitization                                    | Based on available data, the classification criteria are not met |

|                                          |                                                                  |
|------------------------------------------|------------------------------------------------------------------|
| <b>Respiratory sensitization</b>         | Based on available data, the classification criteria are not met |
| <b>Reproductive toxicity</b>             | Based on available data, the classification criteria are not met |
| <b>STOT-single exposure</b>              | Based on available data, the classification criteria are not met |
| <b>STOT-repeated exposure</b>            | Based on available data, the classification criteria are not met |
| <b>Aspiration hazard</b>                 | Based on available data, the classification criteria are not met |
| <b>Germ cell mutagenicity</b>            | Based on available data, the classification criteria are not met |
| <b>Reproductive toxicity(additional)</b> | Based on available data, the classification criteria are not met |

## 12 Ecological information

### | Acute aquatic toxicity

|                               |                          |
|-------------------------------|--------------------------|
| <b>Acute aquatic toxicity</b> | No information available |
|-------------------------------|--------------------------|

### | Chronic aquatic toxicity

|                                 |                          |
|---------------------------------|--------------------------|
| <b>Chronic aquatic toxicity</b> | No information available |
|---------------------------------|--------------------------|

### | Persistence and degradability

|                                      |                          |
|--------------------------------------|--------------------------|
| <b>Persistence and degradability</b> | No information available |
|--------------------------------------|--------------------------|

### | Bioaccumulative potential

|                                  |                          |
|----------------------------------|--------------------------|
| <b>Bioaccumulative potential</b> | No information available |
|----------------------------------|--------------------------|

### | Mobility in soil

|                         |                          |
|-------------------------|--------------------------|
| <b>Mobility in soil</b> | No information available |
|-------------------------|--------------------------|

### | Results of PBT and vPvB assessment

| Component                                             | Results of PBT and vPvB assessment [according to (EC) No 1907/2006] |
|-------------------------------------------------------|---------------------------------------------------------------------|
| <b>Methyl Allyl Alcohol<br/>Polyoxyethylene Ether</b> | not PBT/vPvB                                                        |

## 13 Disposal considerations

### | Disposal considerations

|                                 |                                                                                                                                                        |
|---------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Waste chemicals</b>          | Before disposal should refer to the relevant national and local laws and regulation. Recommend the use of incineration disposal.                       |
| <b>Contaminated packaging</b>   | Containers may still present chemical hazard when empty. Keep away from hot and ignition source of fire. Return to supplier for recycling if possible. |
| <b>Disposal recommendations</b> | Refer to section waste chemicals and contaminated packaging.                                                                                           |

## 14 Transport information

### | Label and Mark

|                           |                |
|---------------------------|----------------|
| <b>Transporting Label</b> | Not applicable |
|---------------------------|----------------|

### | IMDG-CODE

|                  |                                                |
|------------------|------------------------------------------------|
| <b>IMDG-CODE</b> | NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS |
|------------------|------------------------------------------------|

### | IATA-DGR

## IATA-DGR

NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

## UN-ADR

## UN-ADR

NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

## 15 Regulatory information

## International chemical inventory

| Component                                     | EINECS | TSCA | DSL | IECSC | NZIoC | PICCS | KECI | AICS | ENCS |
|-----------------------------------------------|--------|------|-----|-------|-------|-------|------|------|------|
