Section 3 Composition/information on ingredients

Substance/Mixture: Substance

Ingredient(s):

Chemical Name	Registration No.	Index No.	CAS No.	EC No.	Concentration
TRICHLOROISOCYANURIC ACID (POWDER , GRANULAR , TABLET)	N/A	613-031-00-5	87-90-1	201-782-8	100%

Section 4 First aid measures

4.1 Description of first aid measures:

In all cases of doubt, or when symptoms persist, seek medical attention.

4.1.1 In case of inhalation:

Remove from exposure to fresh air immediately. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical aid.

4.1.2 In case of skin contact:

Remove soiled clothes and shoes. Wash with plenty of water immediately after skin contact. Seek medical treatment.

4.1.3 In case of eyes contact:

Protect unharmed eye. Rinse the eyes with open eyelids for 10-15 minutes with water. Then consult an eye specialist immediately.

4.1.4 In case of ingestion:

Rinse mouth with water. Drink plenty of water, but never give anything to an unconscious person. Do not induce vomiting. Immediately call an emergency physician to the place of accident. Do not use acids or acidic substances as an antidot.

4.2 Most important symptoms and effects, both acute and delayed

Harmful if swallowed. Causes serious eye irritation. May cause respiratory irritation.

4.3 Indication of any immediate medical attention and special treatment needed

If skin irritation or rash occurs, get medical advice/attention.

Section 5 Fire-Fighting measures

5.1 Extinguishing media:

Suitable extinguishing media: For safety reasons: water, foam. Unsuitable extinguishing media: Not available.

5.2 Special hazards arising from the substance or mixture

During heating or in case of fire poisonous gases are produced: nitrogen oxides (NOx), hydrogen chloride (HCI), chlorine.

5.3 Advice for fire-fighters:

Fire-fighters should wear full protective clothing and self-contained breathing apparatus (SCBA).

Section 6 Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures:

6.1.1 For non-emergency personnel:

Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Provide appropriate exhaust ventilation at places where dust is formed.

Printina	date:	06/11/2012

SDS Record Number: CSSS-TCO-010-112274 Version 1.1 Revision date: 06/11/2012

6.1.2 For emergency responders:

Wear an appropriate NIOSH/MSHA approved respirator if mist, vapor or dust is generated.

6.2 Environmental Precautions:

Do not allow material to be released to the environment without proper governmental permits. Very toxic to aquatic life with long lasting effects.

6.3 Methods for Containment and Cleaning up:

Sweep up, avoiding generation of dust, then immediately spread as a thin layer in an uncontaminated, dry open area, to avoid the possibility of hot spots forming. Gradually hose to drain ensuring large dilution. Do not store or transport swept up material. Do not return spilled material to original container. Do not add small amount of water to material. Where a spill has occurred in a confined space or an unventilated building and the material is damp and evolving chlorine, the rate of chlorine evolution can be reduced by covering the thinly spread solid with soda ash. For large spills notify Emergency Services.

6.4 Reference to other sections:

See Section 7 for information on safe handling. See section 8 for information on personal protection equipment. See Section 13 for information on disposal.

6.5 Additional information:

Not applicable.

Section 7 Handling and storage

7.1 Precautions for safe handling:

7.1.1 Protective measures:

Strong oxidising agent. Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to water. Use clean dry dispensing equipment. Avoid contact with the skin and the eyes.

7.1.2 Advice on general occupational hygiene:

Do not eat, drink and smoke in work areas. Wash hands after use. Remove contaminated clothing and protective equipment before entering eating areas. Provide adequate ventilation. Avoid contact with the skin and eyes.

7.2 Conditions for safe storage, including any incompatibilities:

Store container tightly sealed at a cool and dry place with sufficient ventilation. Suitable material: Steel, Stainless steel. Protect from humidity and water. This product is hygroscopic. Do not use wooden shelves. Maximum storage temperature: 25°C.

7.3 Specific end use(s):

Not applicable.

Section 8 Exposure control/personal protection

8.1 Control parameters:

- 8.1.1 Occupational exposure limits: Not available.
- 8.1.2 Additional exposure limits under the conditions of use: Not available.
- 8.1.3 DNEL/DMEL and PNEC-Values: Not available.

8.2 Exposure controls

8.2.1 Appropriate engineering controls:

Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower. Use adequate ventilation to keep airborne concentrations low.

8.2.2 Individual protection measures, such as personal protective equipment:
