

KHC-406E Oil Soluble Copper Corrosion Inhibitor

Product Introduction

KHC-406E has many features such as anti-wear, anti-corrosion, anti-oxidation and anti-rust. It's with the outstanding capacities of oil solubility, copper corrosion inhibition, rust resistance, anti-deoxidant, anti-adhesive and working performance.

Product Characteristics

■ Good thermal stability ■ High performance ■ Good oil solubility

Recommended Dosage

0.1%-1%

Physicochemical Properties

Item	Quality Index	Test Method
Appearance	Yellow to brown color liquid	Eyeballing
Oil Solubility	Soluble	Eyeballing
Nitrogen Content	≥ 6.5	SH/T 0704
Moisture	≤ 0.1	GB/T 260
Copper Corrosion (100°C,3h)	≤ 1	GB/T 5096

Packaging

200KG/200KG Galvanized steel drum or plastic drum package,

The product packaging, marking, transportation, storage and delivery shall be carried out according to SH/T0164.
