

6-amino-1,3-dimethyluracil:

Molecular Formula: C₆H₉N₃O₂

Appearance: Off white to light yellow powder

Cas No: 6642-31-5

Einecs No: 229-662-0

Packaging; 25kg/bag or according to customer requirement

item	specifications
Moisture (%)	≤1.0
Initial melting point(°C)	287-296
Fineness(%)≥	(325mesh)99.9
Purity	≥98%

Application: used as heat stabilizer of plastics and pharmaceutical intermediates.
